The Approaching Session of Congress.

The first session of the Thirty-fourth Congress will commence in three weeks from to day (Monday). It will, in many respects, be the most interesting and important session which has been held for years. The complexion of the House is strongly anti Nebraska, and strongly anti administration—but as that majority is not entirely homogeneous in its political character—being made up both of Republicans and of anti-slavery "Americans," there has been some little doubt as to the manner in which the organization would be effected. Several candidates for the Speakership have been named from the diametrical Republicans,—among others Mr Campbell of Ohio, and Mr. Washburn of this State. Hon. N P Banks of Massachusetts, is understood to be the "American" candidate. He is a firm friend of freedom, and should he be elected will be satisfactory to every Republican. The Republicans, and the greater part of the Northern "Americans" are, in fact, nearly identical in their principles upon the great question of slavery extension, (many of them being, in fact, the same upon which ticket) that they will undoubtedly unite in the organization without difficulty.

In regard to the Clerkship, it is said to be conceded at Washington, that Hon Wm. Cullom of Tennessee will be elected. The Herald says he will unite the Southern Know Nothing and the Northern anti-Nebraska vote. Mr. C was formerly a Whig, but one of very liberal views on the slavery question, for a Southern man. He was one of the seven Southern Whigs who refused to join the main body of their political brethren, in agreeing to the Nebraska majority, and who voted against the bill. Every Republican will rejoice in the election of such a man to the important, responsible and lucrative station of Clerk of the National House of Representatives.

As the approaching session, parties are to be more than ever and thoroughly organized for the Presidential campaign—and measures taken we trust, to so consolidate the anti-hunker, anti-Nebraska majority of the country, as to make it available for victory in the great contest, by avoiding the divisions which have, this year, lost to some of the important States.

The necessity for such a unity will be plainly seen in the course of the session,—which will continue beyond the time of the Presidential nominations, and up to within three months of the election. Such a necessity will be brought home to the minds of the anti-Nebraska members by the events of the session itself. At its very threshold, the pro-slavery delegate from Kansas, (Mr. Whitfield) chosen at an election held by an illegally elected Legislature, at which election none but the pro slavery men voted, will appear with credentials signed by President Pierce's compliant Governor—and sustained by the influence of the administration and the entire slaveholding and hunker democratic strength of the House. He will be met by Ex Governor Reeder, the man who would not recognize the Legislature chosen for Kansas by the Missouri ruffians, and who was consequently removed by the President, and subsequently elected Delegate by the free soil residents of the Territory, comprising a large majority of the actual settlers. The question of receiving, or of yielding to this unjust slavery dominated will, therefore, come at once before the members of the House, and parties will be distinctly formed upon that issue. If the members chosen as anti-Nebraska men are faithful to the sentiments of their constituents, Gov Reeder will be admitted. This done, the anti-Nebraska elements will be more thoroughly cemented for the Presidential campaign, in order, especially, to meet the first question of the admission of Kansas as a free State—as Governor Reeder will bring in his pocket a Free State Constitution, adopted by the settlers, which ought to be and probably will be at once accepted by the House, but rejected or smothered by the Senate. This direct issue upon slavery or freedom in Kansas, will then be carried into the Presidential election, as, in fact, the last question upon the vital issue of slavery extension, and the only issue really extant between political parties. Upon this ground, it seems to us that there must be a cordial union among anti-Nebraska men, whether they call themselves Republicans or Americans. It will not so,—if the slavery propaganda is allowed to carry the contest, through our divisions—the aggressive and will soon become so intolerable as really to endanger the Union. True conservatism says "Check them now," and thus save the Union,"—and a wise combination in the next election will do it.

EXTREMISM ON THE MISSOURI BORDER.—The St Louis Democrat of the 6th inst. is informed by a gentleman in the western part of the State that the recent publications in regard to the secret organization of the free State men in Kansas have aroused the Missouri borderers, and they are canvassing the expediency of an appeal to arms. The public feeling was of an intense and alarming character, and it was predicted that there would be civil war in Kansas in less than twenty days. The Democrats is satisfied that the whole matter has been covertly urged on with a view to influence the Missouri election for Senator of the United States.

A French paper tells a curious story of a recent affair that has created a great excitement in India. The Bramin religion requires of its devotees a number of ablutions in the Ganges. The women have a locality well secluded of their own. By times many of the women had mysteriously disappeared while bathing. Some said it was a crocodile wolf that had stolen into this female fold,—some declared in favor of an evil genius,—but it was finally discovered that a man had taken advantage of his power of keeping under water, and had seized and drowned the women for the sake of their jewels which they do not take off while in the water.

"DON'T CROWD US 'GENTLEMEN'."—Smart's Free Press, which seems to be the chief managing organ of the hunker coalition party, has the following significant hints:

"In the appointments to be made by the incoming Governor, the rights of our allies will be considered, which will render it useless for any one to attempt to force through a particular appointment, by arranging petitions which are often signed without reflection. Whoever attempts thus to embarrass the new Executive, will thereby establish his inability to appreciate the present position of the democratic party.—We have heard of a candidate who is soliciting abolition names to convince the Governor of his fitness for office."

The real English of the above is, that the new dynasty will dispose of the offices and patronage, according to their own arrangements—and that it is of no use for the rank and file to think of having any voice in the matter. We hear that a distinguished wild cat politician who shone under Pierce's administration, has already been promoted the Land Office, that another of the same ilk is after the Treasury department,—and that the leaders are shaking "secret Councils" upon other important offices. Some people who are expecting rewards for their services are bound to be cheated, anyhow; and it will stand our Street Whig friends in hand to look sharp about them.

HOSEA—HEAD AND McDONNER.—By Jacob Abbot; With numerous Engravings. New York, Harper & Brothers. 1855

We are indebted to Messrs. Peirdge & Co., of Boston, for a copy of this beautiful volume, of Jacob Abbott's Young Christian Series" greatly enlarged and improved in this edition this volume contains two connected tales, with the above titles, designed to illustrate the very radical character of the change by which the Christian life is begun. The high character of the works comprising the series, will be at once perceived, when we mention that the "Young Christian" and the "Corner Stone" compose the first and second volumes.

METRICAL PIECES, Translated and Original — By N L Frothingham, Boston: Crosby, Nichols, & Co 1855.

Frothingham's poetry is simple and unpretending, but well versified, smooth and clear—in good, strong and understandable Saxon words. It is without high-toned and chaste, and presenting the most elevated ideas, and purest moral sentiments, with the vein of true poetic inspiration. The translations in this volume are from the highest class of poetry, and rendered in the spirit of the originals. They are from the Greek of Arntze, the Latin of Propertius, the Latin of Manzoni and the German of Goethe, Schiller, Herder, Ruckert, Uhland and others.

The book is very handsomely issued by the publishers, and for sale in Bangor by E. F. Duren.

The Trenton, N J Gazette records the passage through that town of a party of fugitive slaves under the following remarkable circumstances:

Two years ago a slave woman advanced in years, the mother of six children, who had all been sold from her when old enough to be useful, overheard her master bargaining for the sale of her grandson, a boy fifteen years old to a trader. Thus being the last of her family, she resolved not to permit it, and the same night fled with the boy. They travelled by night northward, guided by the north star, and after long wanderings reached Canada. There she hired herself out for wages, and two months ago, with the results of her own and her boy's labors, returned to the south, where, concealing herself in the woods she revealed her presence only to her friends and thus collected seven of her children and grandchildren. They started northward, travelling only by night, and concealing themselves by day. Before reaching Philadelphia, they were so worn out with hunger and hardship as to be obliged to seek the aid of friends. These were found, and the whole party were then fed, clothed and forwarded to Canada. This woman is nearly sixty years of age, yet alone she has done all this.

The fortune left by the late Baron Dietrich, of Vienna, to his grandson, Prince Sulkowsky, amounts to eighteen millions of florins, ($9,000,000). There were found in the cellar twenty-two bags, each containing 1000 ducats in gold, and in different chests 4 centners out of date and lost for a sum of 180 000 florins. This precipe of hoarding gold is said to be very common on Austria, where the paper currency is greatly depreciated.

In 1823 there were only some half a dozen Protestant Christians who could be assembled together for religious worship in China. Now there are daily religious services at Hong Kong and all the open cities—a score or more in all. Open on the Sabbath, where thousands go to worship, and the whole mass of Chinese minds is stirred up by a body of insurgents, of whom one prominent characteristic is their rejection of idolatrous worship.

Albany Lumber Market.

For the Week ending Wednesday Nov 7.

Sales for the week exhibit the same activity as previously noted. The shipments have been somewhat retarded by the want of vessels for Eastern ports. There is a large quantity on hand, sold but not delivered on this account; and increased freights are readily obtained for all vessels which offer, and more are wanted. Prices remained as heretofore. The assortment in market is fair, and the stock is large. Clear Pine and best Shingles are in least supply.

LONG JOHN IN THE FIELD AGAIN.—Col. Abbott, lately of the Belfast Free Press, between whom and Collector Smart, so interesting a fight is going on, and only re-appears upon the Belfast stage, and boards the lion in his den. From the last Belfast Journal, (which is respected to see Abbott put the knife into his political brother Smart) we copy the following—being a portion of its report of a recent meeting at that place.

Enthusiastic Anti-Custom House demonstration —700 People in Council—Col. Abbott makes a Movement in the Offensive

Pursuant to a previous announcement, on Saturday evening the citizens assembled at the spacious hall of the Messrs. Pierce, to hear from Col John Abbott, late Deputy Collector and Aid to the Revenue, an account of the associations with the custom house and with Mr. E. K. Smart, the collector.

Before the time of the meeting the hall was crowded to its utmost capacity, and by the hour at which the speaker was to commence, 700 persons were within the hall, while a large number were unable to gain admittance.

The entrance of Co Abbott was hailed by enthusiastic applause which did not subside until after he commenced speaking. Mr. A. began by saying that his friends must not be disappointed if he did not make much of a speech, since the collector has advertised him as a man without brains, or even the capacity of wasting much less talking. He proceeded to thank the audience for their presence. But he would not be vain enough to regard it as much a compliment to himself as an expression of public sentiment towards a venal and hated public functionary! [Tremendous and prolonged applause.] He regretted the necessity for the meeting, on account of the democratic party, and especially on account of that pure patriot and noble-hearted gentleman, Franklin Pierce, whose brilliant administration was tarnished by his official.

Col. Abbott proceeded to say that the most grave charge was that he did not write the editorial of the Free Press, and had not the ability to do so. It was true that he did not write it all, and he thanked the editor for acquitting him of writing a part of it. [Applause and laughter.] He alluded to his services to the democracy as an editor, and said the fact that as editor of the Democratic Advocate, he stood solitary and alone, the advocate of the popular sovereignty principle. He conceded to Smart the honor of writing all the original articles abusive of our citizens and of true democrats, and those touching the great talents and popularity of the collector! [Great laughter.]

The speaker next proceeded to carry the war into Africa. He charged the collector with being politically and socially corrupt. He was really a black-hearted abolitionist, and a dead weight on the party, as the election shows. He wanted to claim some glory in the election, and so he took the three strongest anti-Morrill districts as much as possible him, for his charge, and every one of them was lost—Camden, Northport and Prospect. [Sensation.] And why this attack on me, but to cover that popular indignation that ought to send him to the shades of retirement? [Great applause and the word "damn" from several.]

THE NEW YORK ELECTION. The Albany Evening Journal had the following items in its Wednesday's issue:

The returns are not too imperfect to enable us to say how the Election has resulted. The probabilities, however, are in favor of the Know Nothing Ticket. This result should it have been effected, has been produced by the large Liquor Vote against the Republican Ticket in New York, Brooklyn, Albany, Troy and Buffalo. While the Liquor Vote, on the one hand, was thrown against us, for the Softs, a large proportion of the Prohibitory Law Votes, on the other hand, was cast against us, for the Know Nothing Ticket.

Against all these elements and influences, with the entire Liquor Vote, the large Catholic Vote, the whole Know Nothing force, the "straight-out Whig" Vote, and a part of the Maine Law Vote, against us, the REPUBLICAN LEADER, if not elected, has received a vote which furnishes not only the most gratifying, but certain guarantees for the future.

The "Softs," our most perfidious and malignant opponents, with all their auxiliary aids with allies who furnished tens of thousands of dollars for the canvass—are utterly overthrown and wiped out. With the Locust and Adopted Vote abstracted from their column, the Hards would far outnumber them.

RECALL OF GEN. SIMPSON.—The London Times announces, positively, that Gen. Simpson has been recalled, and the Herald states that Lieut Gen. Codrington is to be his successor. The following extract from the Times embodies, probably, the sentiments of a large portion of the British public in regard to Gen. Simpson's conduct of the war:

"We confess it is with no little satisfaction that we learn, positively for the last time, that General Simpson has ceased to command the army in the Crimea. We are seriously not inclined to be hard upon him, but no man ever contrived more completely to demolish a reputation in a few weeks. He assumed the Russian precisely under the same conditions as those which had proved so disastrous on the 18th of June. If he really designed to carry the work, he was unpardonable for not carrying the sap closer to it, for not providing adequate means for crossing the ditch, for not employing old and seasoned regiments, and for not vigorously and copiously supporting those regiments that he did employ. His own dispatch, in which he asserts that they were supported, is on this point the most complete evidence against him. He on the other hand, as is asserted by some but very judicious advocates of General Simpson, it was intended not to carry the Redan, but merely to distract attention by a repeated attack, we have a right to ask how any English General came to accept such a service for his troops, and why he did not insist upon it that the feigned and the real attack should be made by contingents from either army, so that glory and loss might be equally divided between them? But, saving this, surely a feint, if feint there was to be, might have been made at a lighter sacrifice than the number of men which sufficed to win the battle of Alma or Inkermann."

NEW YORK ELECTION.—*New York, Nov. 9.* Additional returns received yesterday give Headley, K. N., for Secretary of State, a plurality of nearly 13 000 over King, Republican. There are six counties to hear from, which will probably decrease Headley's majority. The Senate, as far as heard from, stands, Republican 14, American 6, Democratic 6. There are six counties to hear from.

The Assembly stands Republican 18, American 31, Democrats 33, with forty-four to hear from. In the city and County, owing to the fusion of the Hards and Softs on some of the nominees, the successful candidates, according to present appearance, are pretty equally divided between the Democrats and Americans.

A NOBLE DOG.—In Covington, Ky., recently, a man rudely jostled a little girl into the gutter with seeming indifference as to the consequences. A large dog, a very peaceful animal, witnessing the affair, instantly sprung upon the man and seized him by the throat, holding him fast until taken away by the bystanders. The child was somewhat injured by the fall, but the indignant people thought the blow had been sufficiently punished by the dog—the noble brute of the two—and let him go.

Antioch College.

The religious connection who reject all distinctive designation but that of Christian, all tests of fellowship, but faith in Christ and a corresponding life, and which has grown within the last forty years from a very humble beginning to a position of decided influence and strength, resolved some few years since to found a College, in which all useful knowledge should be taught, and from which all sectarian dogmatism or proselytism should be excluded. This was a great undertaking for a people who were generally poor, as the members of young denominations always are, and who had not acquired the habit of giving for public uses, beyond the limits of their several societies. Yet they opened their subscription, located (in 1852) their College, at Yellow Springs, Green County, Ohio, and persuaded Horace Mann to accept the Presidency, several spacious edifices were rapidly erected, a faculty organized, and the College opened with several hundred students, nearly two years ago.

This extraordinary popularity at the outset proved one main source of embarrassment to the new College. A few score of students might have been provided for out of the funds originally subscribed; but the hundreds who flocked thither, imperatively required more buildings, more teachers, and enlarged outlay in every respect. Hence Antioch was sorely beset by pecuniary requisitions which it was unable to meet, until serious apprehensions were felt that it was doomed to a speedy and inglorious downfall. But these expectations have not been realized, and will not be. The rent of the College has aroused its friends to resolute exertion. Large additions to its means have recently been made, and the efforts to the end are still in progress. We trust that they will not be remitted until the institution is fully relieved from debt, and its future expansion and eminent usefulness fully insured. Meantime we commend it to the effective favor of all who approve the plan of the College and are able to embody their faith in action.

N Y. Tribune.

Mr J. Elliot, an agent for the above named institution, is now in our city, soliciting subscriptions for its benefit. The College is liberal and reformatory in its character, and occupies an important position in forwarding the cause of education in the great West. We trust our citizens may contribute as they may feel able to its relief.

A FLARE-UP WITH ENGLAND. THE CLAYTON AND BULWER TREATY.—The Washington correspondent of the Courier and Enquirer, states that official advices of much importance were brought from Mr. Buchanan, by the last steamer.

Lord Palmerston after two years of solicitation for a decision, has at length explicitly declared, that her Majesty's Government will not conform to the American construction of the Clayton and Bulwer treaty, will not abandon the new Colony of the Bay of Islands, will not relinquish the old boundaries of the Central American Republic, as those intended by the treaty, and will not relinquish the protectorate of the Musquito Indians.

The Clayton and Bulwer treaty is therefore repudiated by both Governments, and no longer exists. The unexpected change in the relation of the United States towards Central America, will lead to the most important political results.

The enterprises of Walker and Kinney will soon bring up the question of annexation, in a form which cannot be evaded. Two separate propositions for the annexation of a portion of these states have already been made to the present Administration, the solid obstacle to the acceptance of which was the Clayton treaty.

A THIRD BRITISH GUNS ON THE PACIFIC RAILROAD.—The St. Louis Democrat, Nov 6, says fatality seems to attend this road. Scarcely had the mournful procession bearing the mutilated bodies proceeded half-way in its return, when, on reaching the bridge at Boeuff creek, amidst the darkness of night and the horses stopping such a progress, that also was swept away by the flood, just as the uninjured had passed over, and while the cars containing the wounded were in the act of going upon the frail structure.

A wonderful Providence seemed to have protected the sufferers. The tide carried everything before it,—amid the storm and the rushing of the torrent the communication between the two banks was cut off—and thus the disheveled train stood without the possibility of proceeding. Those passengers who had crossed, however, came on to the depot and reached this city on Friday night. The dead and wounded were ferried over to Washington, and then placed on the cars again, and finally reached St. Louis on Saturday at 6 o'clock.

To day we have to record another calamity and another disaster to this unfortunate railroad. We learn that the bridge at the Moreau four miles this side of Jefferson, gave way on Friday evening, and that structure also is now a mass of broken fragments. This is said to have been the only completed bridge on the whole line, and the result that has happened, only confirms what is already said of those which had previously fallen. Not one has stood the test of a flood-tide—not one but has endangered, to a great extent, human life,—while a single agent of a careless such, has hurried twenty-eight of our citizens into eternity.

GOV. REEDER AND GEN WHITFIELD.—Gov. Reeder has publicly notified Mr. Whitfield that he will contest his right to a seat in the next Congress, and is prepared with witnesses to prove, at places indicated, and to which his attention is directed, the invalidity of the low usages which his alleged election took place.

To this Gen. Whitfield has returned a very fast reply, refusing to recognize Gov. Reeder's right to call the validity of his election in question. He says that can be determined only by courts of competent jurisdiction created for the purpose, and not by the oaths of witnesses, however numerous, intelligent, or truthful.

THE STEAM GRANITE.—We learn that the ship Granite, launched last week by Messrs. White & Conner, has been sold to A. Hardy & Co., and others, of Boston, for $58 per ton, ready for sea. The Granite is 1050 tons, and is a particularly beautiful and staunch ship. Messrs W. & C. have laid the keel for another ship of the same model and mould. She will probably be ready to launch in April.—*Belfast Journal.*

NATURAL CURIOSITY. In Mariposa county, California, is one of the most remarkable objects of natural scenery in the world. A considerable stream dashes down a precipice almost perpendicularly, sixteen hundred feet, and afterwards the collected waters again fall in spray and foam to the depth of eight hundred feet. In winter, when the stream is swollen into a torrent, and snows cover the lofty mountains surrounding, the scene beggars all description.

The Petersville (Va.) Journal says that a gentleman in Prince Edwards county, finding one of the rooms in his house uninhabitable, from the bad smell made by bats, who had taken up their residence under the eaves and weather boarding, had the room torn down, when an immense number of bats were killed, which the gentleman estimates at from two to three thousand.

SETTLED. We learn that the claim of J. H. T. Newell, Esq., of Hallowell, against the Boston and Maine Railroad, for which he received by his little daughter in 1852, when General Pierce's boy was killed, has been settled by the payment of $3000.—*Lowell News.*

THE LITERARY LANDLADY OF FLOWERS.—Somebody has published a book, under the quaint title of "An Hour with the Hollyhock." We confess we have not much curiosity to read the work, for we cannot see how sixty minutes, spent in the company of a rather vulgar-looking plant, can afford matter of either an amusing or instructive character. We would much rather have "Five Minutes with a Pineapple," or even "A Moment with a Peach," or "A Quarter of an Hour with a few Apricots." The language of flowers is all very well, but we do not believe the biggest hollyhock, of the dowerest of dahlias, can have anything to say for itself that would justify any reasonable being in giving up even half an hour to its society. *Punch.*

ILLNESS OF HON. TIMOTHY BOUTELLE. The Waterville Mail says:

We regret to announce that Hon. Timothy Boutelle is dangerously sick. His health has been declining during the summer, sufficient so to alarm his friends. Symptoms are said to indicate disease of the heart, from which a fatal result is feared.

On Sunday, in the Episcopal Church, Lynchburg, Va, the entire congregation retained their seats, as it was understood that a marriage was about to take place. The marriage came off in due time, and, the parties proved to be two colored servants, who can boast of having had the largest wedding assemblage ever gotten together in Lynchburg.

HEAVY VERDICT.—In New York, the other day, Miss Mary Coe obtained from a jury a verdict of $10 000 against Samuel W. Plume, for alleged seduction and breach of promise of marriage. The case was allowed to go by default. Both parties reside at Newark, N. J. Mr. Plume is said to be worth $40,000 or $50-000.

WISCONSIN STATE ELECTION.—*Milwaukie, Nov. 9.*—The State tickets run very close, and the result is doubtful. The Legislature, as far as heard from, stands—Senate, 14 Republicans and 11 Democrats. Assembly, 32 Republicans and 33 Democrats.

The Norfolk News publishes a formidable list of letters remaining in the post office of that city on the 1st instant, which occupies nearly half a page of the paper. Large numbers of these to whom the letters are addressed are among the dead.

LUMBER FOR GALVESTON. A large quantity of lumber, between two and three millions of feet, has recently been purchased in this city by a gentleman from Galveston, for which the cash was paid. It will make about twenty cargoes. Three cargoes cleared yesterday.—*Journal.*

A printer out west, whose first son happened to be a very short, fat little fellow, named him Brevier Fullface Jones.

MINNESOTA. The Minnesotian of the 10th gives the following as the approximate vote in that territory for delegate in Congress:—

Rice, Nebraska democrat,	3517
Marshall, Republican,	2819
Olmstead, anti-Nebraska dem.,	1864
Loomis, American,	233

The whole vote of the territory is between 8000 and 9000—nearly treble the vote cast two years ago.

A Constantinople letter says:—"This city is more under the control of France than any other out of the Empire—soldiers, police, everything French. The English see and regret it."

NEW MARKET HOUSE. The arrangements for warming the new Central Market House by steam pipes has been completed, and was put in operation for the first time on Saturday. We understand it worked satisfactorily. The company has been very liberal in warming and lighting the whole building at a large expense. We believe the heating apparatus cost upwards of $2000.

The Investigating Committee, upon the case of the missing liquors, closed their meetings on Saturday evening, and we understand will be ready with a voluminous report, at a Special Meeting of the City Council.

Mr J. G Severance, writing from Newport, Nov 8th, gives the following item.—Mr. John Garland, formerly of Skowhegan, was last night knocked down by a team loaded with shingles, and the wheels passed over him, badly breaking his arm, and otherwise seriously injuring him.

Vessels continue scarce and in great demand at this port.

Thanks to Edwards' Express for favors.

Dedication.

The Union St M. E Church, will be dedicated to the worship of God, WEDNESDAY, Nov. 14. Services will commence at half past 10 A M. Sermon by Rev Wm F Farrington, of Portland. Services in the evening, commencing at 7. The Pews in said house will be sold on the afternoon of said day. Sale to commence at 2.

A boy is wanted at this office, immediately, to carry papers. nov9 tf

Holloway's Pills, an unfailing Remedy for all disorders of the Chest and Lungs. Oliver Thompson, of Little Falls New York, was brought in a most deplorable state of health for twelve years. His lungs, so the doctors told him, were completely gone, his chest, and so forth, was to boot. Had scarcely an ounce of flesh on him than he has become. In addition to this, he had a cough which completely shook him to pieces, (these are his own words) the last one called on Professor Holloway to see if can him that all his complaints have been removed by Holloway's Pills, after he had used them for seven weeks and two days, and he now feels better than ever he did in his life. These Pills will readily remove all diseases of the stomach and bowels.

New York Election.

NEW YORK, 10th.

Returns from all the counties in the State, except seven of four, give Headly a plurality over King of 10,792. All the Senatorial districts have been heard from. That body will stand 8 N's 9, Dems. 9, Reps. 7. In the Assembly, as far as ascertained, there are 64 N's, 47 Dems., and 42 Reps.

Explosions and Loss of Life.

PHILADELPHIA, 10th.

The propeller Fowler, Capt. Langley, bound south, was struck by a heavy squall yesterday morning, off Fort Stanley. The entire upper deck of the vessel was blown away and the hull much disabled, by which 10 fathoms of water soon rushed in and one woman were lost. Seven men and one woman were saved by clinging to portions of the wreck and were taken off by a schooner.—The propeller Cleveland brought them to Port Stanley.

PHILADELPHIA, 10th.

The explosion of a freight train exploded near this city on the 7th inst., instantly killing the engineer, Jacob Ege. The engineer, Jacob Ege, was thrown some distance in the air and fell through the roof of his engine house, and his body was found some distance from the wreck. The fireman and brakesmen were fractured, and he is not expected to live.

Riot in Baltimore.

BALTIMORE, Nov. 10.

The Know Nothings (American) held a meeting last night in Monument square, which was fired into by a party of Germans, two of whom were killed by the watchmen. The Germans then attacked the houses in the neighborhood, and demolished the windows of a number of houses. The mayor and police proceeded, and were attacked from another quarter. The mayor was severely injured by a stone, and several of the police, prevented the progress of the mob.

Maryland Election.

NEW YORK, Nov. 10.

The news of the Maryland election are the most cheering. It turns out that the Americans have elected their whole ticket by a majority of 4,000. The Legislature of which there are about two-thirds Americans, is also Know Nothing.

Liquor Law Excitement.

PITTSBURG, 10th

In consequence of the severe measures against certain liquor dealers in this city, they were escorted from the city limits in a triumphant procession, with music, &c. It is now said all the liquor dealers will act as usual, so that the threatened complaints, will be so great as to overwhelm the courts, until the law is repealed.

SOMETHING NEW!

MISS J. S. CHADWICK,

AGENT for Madame Briggs, the celebrated Parisian Dress Cutter, recently located at the Augusta House, is now at

MRS. BICKNELL'S, Hammond Street,

where she will teach her simple and beautiful method (Patented according to Act of Congress, 1855.)

This is the only *perfect* and *reliable* rule taught in the United States, and is worthy the candid attention of every lady. Ladies of all ranks and classes learn, and are all alike highly pleased and gratified with it. Ladies quite unused to any thing of the kind, can learn in the short space of two or three hours to fit themselves or others with the utmost ease and accuracy.

Those wishing to learn in the evening, should give previous notice. She will teach from 9 to 12 A M., and from 2½ to 6 P M.

For particulars see handbills

All are kindly invited to call and see, free of charge. Terms reasonable

"Heaven helps, who help themselves"

Girls! do you wish to learn the *Dress Making Business?* instead of going three months board, and three months hire, come to me and I'll teach you for *three dollars*, (provided you already know how to sew.)

Mothers! give your daughters useful knowledge, as you may be rich to-day and poor to-morrow.

Dress Cutting taught in two hours, by a perfect rule. Come and see

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stages of Consumption. When all hopes of cure getting well had fled, he was strongly recommended to use a Sea Weed Tonic from an old Indian receipt, which succeeded in effectually curing him The family physicians and a large number of respectable gentlemen returned to the taste of this case, and soon this Pulmonic Syrup gained a reputation never excelled in that section of the country. Getting, as this case did, a reputation spread to the only of a miracle, Dr. Schenck was mobbed upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and freely extended the hand of friendship and encouragement to Dr Schenck, and introduced the med cine to the public, and used it in their daily practice

So active in exciting agencies upon the system in the manner that the Pulmonic Syrup does It produces no debilitating reaction upon the natural parts, by parting them from disease, it promotes the expectorations, allays the cough, opens the matter on the lungs, and when it is discharged, it heals the opening left the breaking of the tubercles or abscess produced, and the lungs become sound and resume the performance of the natural functions. It also soothes the irritated portion of the lungs and other organs, as it thus restores these parts to health A summer property the medicine possesses over all others, that it contains no opium, calomel or any other deleterious medicine

Dr Schenck removed from Lexington New Jersey, to Philadelphia, and commenced the practice of his profession where he soon acquired a reputation excelled by none, in curing a disease that has hitherto been deemed incurable, and he has since had daily presented to the world incontestible evidence of his success.

Both of his parents died with Consumption, which appears to have been hereditary disease with his father's family. All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty

Thus left nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr J H Schenck How was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his Bed for a long time, and to all appearance was past recovery He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup

DR. J. H. SCHENCK'S

SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart, Jaundice and Pimples of all kinds, Chills and Fever, Gravel, and Diseases of the Kidneys, Nervousness, Heartburn, Costiveness or Piles, Sudden Flushes of Heat over the body, Inflammation of the Lungs, Pain in the Back, Hot Hands, Dizziness of the Head, Dimness of Vision, Dull Pain in the Head, Sudden Pushes of Blood to the Face, Drowsiness, Frightful Dreams, and all diseases arising from a Disordered Liver or Stomach.

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr Schenck can announce to all such the discovery of the virtues of Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it, is caused by the deficient secretion of the gastric juices, and weakness of the powers of the stomach The decoction of the Sea Weed Tonic is left upon after it is taken as it supplies at once the principles of the deficient gastric juices, and the food is digested naturally In fact the Tonic so nearly resembles the natural gastric juices that it seems to lend materially to distinguish them It leaves no ill effects behind, thereby enabling it to secure to the proper quality and quantity of gastric juice, and Dyspepsia and all its diseases soon disappear

It is well known to all that no one suffers like the Dyspeptic, for in addition to the Dyspepsia there is often either Heartburn, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Horrors, General Debility, Costiveness, Loss of Appetite, Bad Taste, Fever, Sluggishness in Females, all or each of them arising from disordered state of the Stomach, and there is no wonder to need *remedy*, for the trifling sum of one dollar, that will cure all this trouble and disease

Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on The choice is for you to make The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion is put up in quart bottle, always agrees with the stomach, and *one bottle* generally effects a cure When you the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills are to accompany each bottle of the Tonic and will be found in a recess of the bottle, covered with a label.

SCHENCK'S

MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, promptly to start the secretions of the liver and give a healthy tone to the entire system Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a hereditary taint—and acknowledged the destructive in the extreme to the human system That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar But separate boxes of Pills can be had of any of the agents for 25 cents

These remedies are prepared under the personal supervision of Dr J H Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c., &c., and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c
